Set up an assignment with the plagiarism checker Ouriginal

Go to the course where you want to create an assignment with the plagiarism checker.

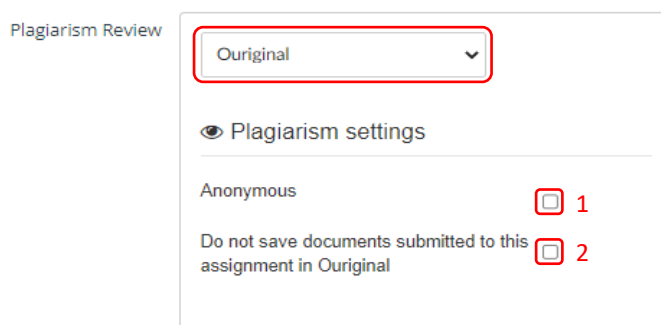

Choose **Assignment** in the course menu on the left side, and create an assignment. Provide a name and instructions for the assignment.

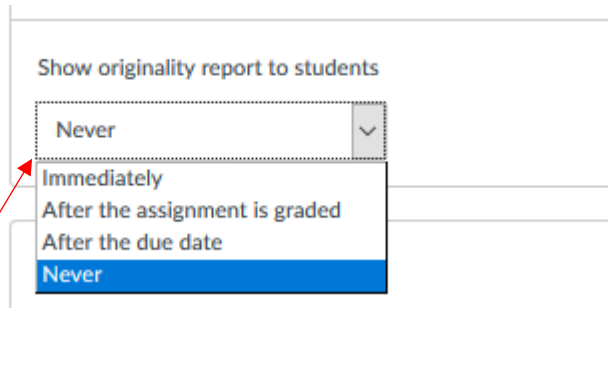

Under Submission type choose **Online** in the dropdown box and mark **File Uploads** as the entry option.

A new option **Plagiarism Review** will appear below and here you choose **Ouriginal**

1. Don't ever make it **anonymous**, as you will not see any names in the similarity reports.
2. You have the option to not save the submitted documents in the Ouriginal database, i.e. it will not be used to check other documents. You can use this to help the students to check their document before final submission. If you do this, change the next option.

If you want to share the result, you can let the students see the Similarity Report by choosing from the drop-down list. **Never** is the default but you can choose e.g. **Immediately**.

Then you can enter the rest of the options for the assignment, like groups, due date etc. and press **Save and Publish**.

View the Similarity report by Speedgrader

In order to see the Similarity report you have to open **Speedgrader**. You will find a link to **Speedgrader** to the right of the assignment.

In **Speedgrader** you will find the following with the similarity percentage specified:

The stopwatch indicates it is working. When the report is ready, it turns into a colour depending on the percentage of similarity (see below).

If you wish to see the **Similarity report**, press the percentage button.

The colour coding

Color	Percentage
Blue	<10%
Green	10% to <25%
Yellow	25% to <50%
Orange	50% to <75%
Red	>75%
Clock	Report is still pending

<https://www.ouriginal.com/wp-content/uploads/2021/11/Canvas-Student-Guide-EN.pdf>

Using Grades

Alternatively, you can open **Grades**. Click on the square of a student then click on the arrow that appears. An overlay window will open for this student.

Student name	Test 1 Out of 0	Assignments	Total
Test student	 	-	 -

Student name	Test 1 Out of 0	Assignments	Total
Test student		-	 -

Test student

Test 1

[SpeedGrader](#)

Click on the Speedgrader link and as above, you will go directly to Speedgrader to see the submission. Then click on the percentage button to see the similarity report.

The Similarity report

The report might look like this:

Ouriginal

ANALYSIS OVERVIEW

3 PAGES OUT OF 3 TOTAL CONTAIN FINDINGS

1 2 3

FINDINGS

- 1 **MATCHING TEXT**
High similarity of content
- 0 **WARNINGS**
Unusual use of characters

[VIEW THE ENTIRE DOCUMENT](#)

SIMILARITY

- 100% This document
- 36% receivers average

En alternativ kilde er en kilde, hvor vi har fundet et tekstmatch, der er identisk med de inkluderede kilder. Vi fandt dog den påvarende matchende tekst i mere end én kilde, og vi mener, at det er...

LEARN MORE

Please note! Some students try to cheat by replacing a normal space with invisible characters and thus making it impossible for Ouriginal to “read” the document. A warning will then appear. On the other hand, this may also be caused by e.g., a lot of Greek letters. If in doubt, ask the students to submit a Word version instead of the PDF version.

[Click here to see the entire report](#)

Top right you find these three icons   

 Reset the report state

 Download the plagiarism report (and maybe share with your students)

 See a guide to the report

The entire report

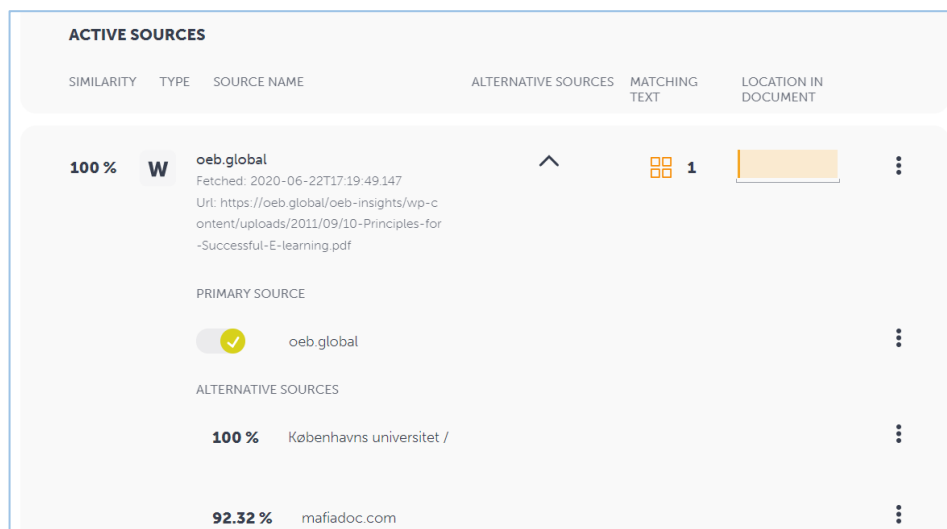

After you have clicked on “View the entire document”, you will get some more options. First tab “Entire document” you will see the parts of the documents which have matches in the database, on the internet or in a journal.

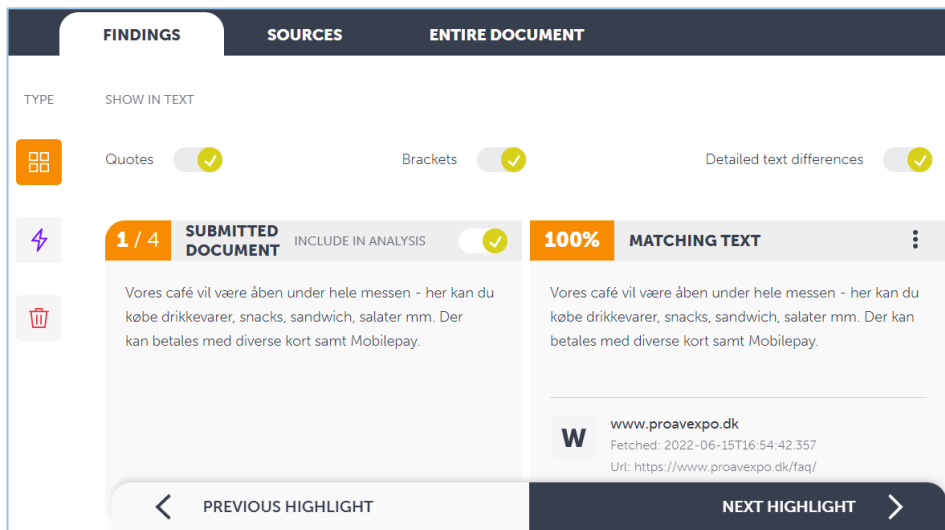

“Sources” will show you the matching sources that Ouriginal has found. You will see the best match.

“Alternative sources” will show other sources with less or same match. Note that if the source is from the University of Copenhagen, it is anonymized.

In the “Findings” tab you can compare the matching parts of the text, step by step.

How does it look for the students?

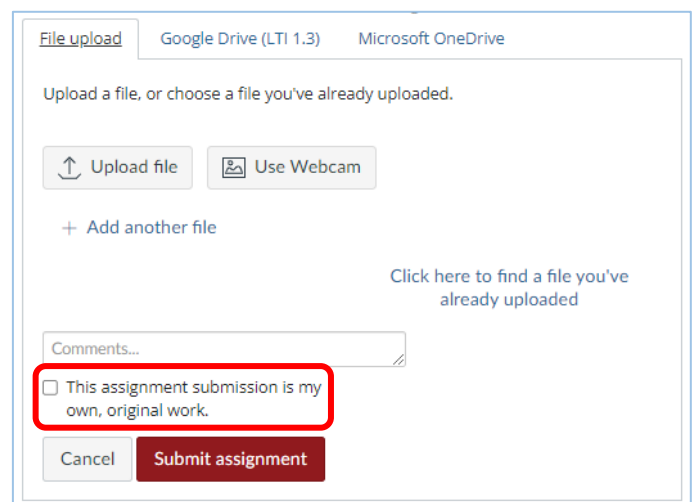

Note! You cannot test OURIGINAL using **Student View**.

The students click Start Assignment as usual.

The students will see the normal window with **File upload** as the front tab. The only difference is that they have to tick off “This assignment submission is my own, original work” before handing it in.

There can be several other tabs, as you see, like **Google Drive** and **Microsoft OneDrive**. No matter where the documents are, they can be uploaded to OURIGINAL.

If the students are allowed to see the similarity report

If you have allowed the students to see the similarity report (p. 2), the students can see a colored icon in **Grades**. If they have submitted only one document, they can just click on the icon to see the report.

Assignment 1 Assignments	2	10	
Assignment 2 Assignments	-	10	

If the student has submitted *more than one document*, they must open the assignment, by clicking on the title. In **Submission details**, they can see the percentage of similarity for each document and if they click on the percentage, they will see the similarity report as above.

Submission details Grade: 2 / 10

How to check documents not submitted in an Assignments in Absalon

1. First method: Log in to Ouriginal.com

If you receive a document from a student by mail or similar, you can log in to OURIGINAL directly to make a plagiarism check.

Ouriginal
by Turnitin

Welcome to Ouriginal

To set up your organisation's account, please fill out the details below

Fullname*
Your Name

Enter the complete name we should use to address you

Email*
abc@science.ku.dk

Enter the email you want to use at Ouriginal

Password*

Language
English (US)

Select your preferred language from the list

I have read ouriginal's privacy policy and agree on terms and conditions

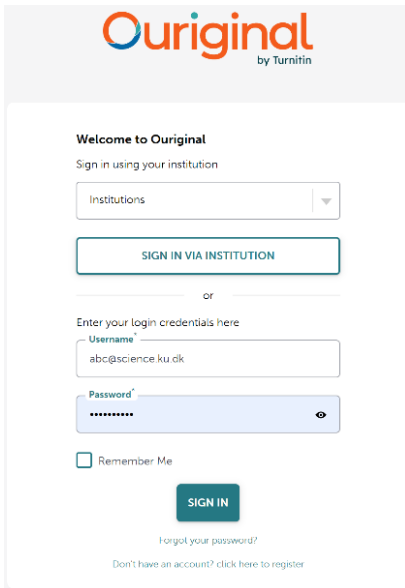

[CREATE ACCOUNT](#)

Already have an account? click here to sign in

Please note! Before you create a login, It is advisable to have created an assignment with Ouriginal and have received submissions at least from the Teststudent in Absalon (Student view).

At Ouriginal.com: click here [Don't have an account?](#) to register in the bottom. Write your e-mail address, like abc@science.ku.dk, and press "Create Account".

It is possible to choose Danish as the language.

If you have an account

Go directly to OURIGINALs home page to login:

<https://secure.orkund.com/login/sign-in>

It is not possible to log in to institution, as SSO for UCPH is not connected.

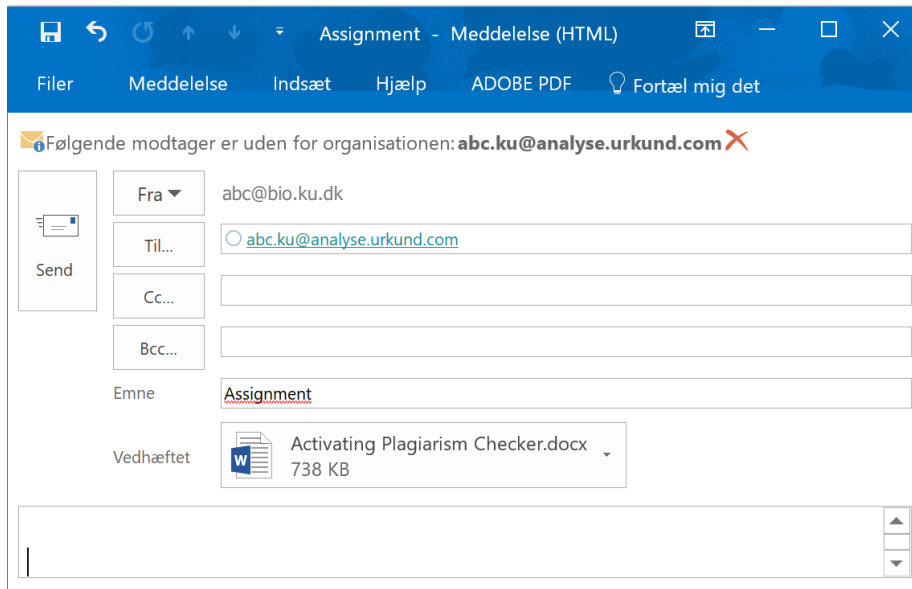

When you are logged in you will see something like **the screenshot** below. You can see all the documents you have received. You can also submit other documents you have received from students by choosing **the plus (+)** in the top. You can create folders and sort the reports, if you like.

You can click the percentage and then choose "OPEN REPORT".

Name	Similarity	Submission ID	Date Uploaded	Information

<input type="checkbox"/> A4_pencast2.docx Henrik Kaas	99%	D25256933	01/25/2017	

2. Second method: send a document as an attachment to an e-mail

Please note that you have a special **mailbox** at ouriginal.com. You will find the address if you click on **your name and profile**. (If you have an e-mail address like abc@bio.ku.dk you will probably have an URKUND address as abc.ku@analyse.orkund.com).

Ouriginal (Urkund) will then analyze the attached file. You have to log in to Ouriginal.com as in method 1 to see the result:

This method can also be used by students, in the sense that students can e-mail an assignment to your Urkund mailbox e.g. if one student mails an attached file to abc.ku@analyse.orkund.com, the teacher (abc) can get the similarity report and download the assignment after logging in to ouriginal.com as above.
