URKUND has now come in a new version with a much more user-friendly interface. You can still find assignments checked by the old version of URKUND (page 10).

### Set up an assignment with the plagiarism checker URKUND

Go to the course in which you want to create an assignment with plagiarism checker.

Choose **Assignment** in the course menu on the left side, and create an assignment. Provide a name and instructions for the assignment.

+ Group	+ Assignment	\$
	+	•

Under Submission type choose **Online** in the dropdown and mark **File Uploads** as entry.

	Plagiarism settings	
	Anonymous	<b>□</b>

A new option **Plagiarism Review** will appear below and here you choose **URKUND** 

Do not make it anonymous, as you will not see any names in the report.

	After the due date	
	Never	

If you want, you can let the students see the Similarity Report by choosing from the drop-down list. **Immediately** is the default but in most cases, you should choose **Never**.

Then you can do the rest of the options of the assignment, like groups or peer reviews and press **Save and Publish**.

### View the Similarity report

In order to see the Similarity report you have to open Speedgrader. You will find a link to Speedgrader to right or below the assignment depending on your screen resolution.

To the right in **Speedgrader** you will find this with the similarity percentage specified:

turns green, yellow or red depending on the percentage of similarity.

If you wish to see the Similarity report, press the percentage button

Alternatively, you can open **Grades**. Click the square to open and get more information.

The bars to the left of the source indicate the degree of similarity. You can tick the sources on and off to see which parts concur with the different sources.

### Warnings

Please note if there is a warning about the assignment. This could reflect that unusual characters are used in the assignment, which could mean that space characters have been replaced with invisible characters as an attempt to cheat the plagiarism control. This is especially a problem with PDF files.

On the other hand, this may also be due to the use of a lot of Greek letters and such. If you are in doubt, ask the students to submit e.g. a Word version instead of the PDF version.

### How does it look for the students?

Note! You cannot test URKUND using Student View.

The students click Submit Assignment as usual.

The student see the normal window with **File upload** as the front tab. The only difference is that they have to tick off that the assignment is their own work before handing in.

There can be several other tabs, as you see, like **Google Doc** and **Office 365**. No matter which tab the students choose, they will all upload to URKUND.

If the students go back to the assignment after handing in they can scroll a bit down and find a link to **Submission Details**.

#### In **Submission Details** they can see the percentage of similarity and if they click on the percentage they can see the similarity report, *if you have allowed them to see the report*.

### How to check documents not submitted in an Assignments in Absalon

#### 1. First method: Log in to urkund.com

If you receive a document from a student by mail or such, you can log in to URKUND directly to make plagiarism check.

**Note!** Before you can log in you need to have set up an assignment for plagiarism check in Absalon. If you have not done that before you can make one perhaps in your Sandbox.

Go directly to URKUNDs home page to login: https://secure.urkund.com/account/en-US/auth/login

First time choose **Have you forgotten your password?** Write your e-mail address, like abc@bio.ku.dk, and log in when you receive a password by mail.

Login	
<ul> <li>URKUND Account / Documer</li> </ul>	nt upload account
Username or Email	abc@science.ku.dk
Password	•••••
	Login Have you forgotten your password?

When you are logged in you will see something like below. You can see all the documents you have received. You can also submit other documents you have received from students by choosing **Upload documents** in the top.

Click the percentage to see the report.

You can create folders and sort the reports, if you like.

#### 2. Second method: Send a document as attachment to an e-mail

Please note that you have a special **mailbox** at urkund.com. The e-mail address consist of your initials from your e-mail address, ku and the urkund domain: [initials].ku@analyse.urkund.com. So if you had an e-mail address like <a href="mailto:abc@bio.ku.dk">abc@bio.ku.dk</a> you will have an URKUND address as <a href="mailto:abc.ku@analyse.urkund.com">abc.ku@analyse.urkund.com</a>.

This method can also be used by students, which means that the students can e-mail an assignment to <u>your</u> URKUND mailbox e.g. if one student mail an assignment to <u>abc.ku@analyse.urkund.com</u>, the teacher (abc) can get the similarity report and download the assignment after logging in to urkund.com.

### Older assignments

If you have been using the old version of URKUND to check for plagiarism, you can still find these results pressing "URKUND (old version)" in the course navigation on the left side.

#### Choose the right assignment and press Show

lame	Show
ïest2	► Show

See result and open report pressing the link to **Analysis**. It will open the **Similarity report** in a new window. To learn more about the Similarity report, go to page 4.
